Election/Restrictions

Newly submitted claims 21-26 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The new claims 21-23 claims data memory chip which specifically differs from the original claims and belongs to class 340 which involves a different search strategy. Similarly the new claims 24-26 claims a specific feature of data bits which also belongs to class 340 and needs special additional search.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-26 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
